IACAPAP Textbook of Child and Adolescent Mental Health

Editor
Joseph M. Rey

EXTENDED 2014 EDITION
Knowledge is the enemy of disease... Applying what we know already will have a bigger impact on health and disease than any drug or technology likely to be introduced in the next decade.

Mental illnesses are different to most other illnesses. The overwhelming burden of mental illnesses falls upon the young.
(Healthcare Information for All 2015).

Supporting the mental health of children and adolescents should be seen as a strategic investment that creates many long term benefits for individuals, societies and health systems.
(WHO, 2005).

**IACAPAP Textbook of Child and Adolescent Mental Health**

*Extended 2014 Edition*
This publication is intended for professionals training or practicing in mental health and not for the general public.

This is an open-access publication under the Creative Commons Attribution Non-commercial License. Use, distribution and reproduction in any medium are allowed without prior permission provided the original work is properly cited and the use is non-commercial.

The opinions expressed are those of the authors and do not necessarily represent the views of IACAPAP or the Editor.

This publication seeks to describe the best treatments and practices based on the scientific evidence available at the time of writing as evaluated by the authors and may change as a result of new research. Readers need to apply this knowledge to patients in accordance with the guidelines and laws of their country of practice. Some medications may not be available in some countries and readers should consult the specific drug information since not all the unwanted effects of medications are mentioned.

Organizations, publications and websites are cited or linked to illustrate issues or as a source of further information. This does not mean that authors, the editor or IACAPAP endorse their content or recommendations, which should be critically assessed by the reader. Websites may also change or cease to exist.

Unless stated otherwise, the case vignettes are fictional and seek to highlight specific issues, although they are based on the authors’ clinical experience.

TABLE OF CONTENTS

Section A. INTRODUCTION

A.1 Ethics and international child and adolescent psychiatry
Adrian Sondheimer & Joseph M Rey

A.2 Normal development: infancy, childhood and adolescence
Nancy G Guerra, Ariel A Williamson & Beatriz Lucas-Molina

A.3 Clinical models for child and adolescent behavioral, emotional and social problems
Thomas M Achenbach & David M Ndetei

A.4 The clinical assessment of infants, preschoolers and their families
Sarah Mares & Ana Soledade Graeff-Martins

A.5 The clinical examination of children, adolescents and their families
Thomas Lempp, Daleen de Lange, Daniel Radeloff & Christian Bachmann

A.6 Evidence-based practice in child and adolescent mental health
John D Hamilton & Füsun Çuhadaroglu-Çetin

A.7 Principles in using psychotropic medication in children and adolescents
Benedetto Vitiello

A.8 e-Therapy. Using computer and mobile technologies in treatment
Karolina Stasiak & Sally Merry

A.9 DSM-5. Major changes for child and adolescent disorders
Julia D Machado, Arthur Caye, Paul J Frick & Luis A Robide

A.10 Case formulation and integration of information in child and adolescent mental health
Schuyler W Henderson & Andrés Martin

A.11 Diagnosis and treatment planning in child and adolescent mental health problems
Barry Nurcombe

Section B. PERINATAL AND EARLY CHILDHOOD RISK AND PROTECTIVE FACTORS AND DISORDERS

Associate Editors: Sarah Mares & Louise Newman

B.1 Early maltreatment and exposure to violence
Susan M K Tan, Norazlin Kamal Nor, Loh Sit Fong, Suzaily Wahab, Sheila Marimuthu & Chan Lai Fong

B.2 Failure to thrive or weight faltering in a primary health care setting
Astrid Berg
Section C. DEVELOPMENTAL DISORDERS

Associate Editor: Jing Liu

C.1 Intellectual disability
Xiaoyan Ke & Jing Liu

C.2 Autism spectrum disorders
Joaquín Fuentes, Muideen Bakare, Kerim Munir, Patricia Aguayo, Naoufel Gaddour & Özgür Öner

C.3 School underachievement and specific learning difficulties
Sonali Nag & Margaret J Snowling

C.4 Enuresis
Alexander von Gontard

C.5 Encopresis
Alexander von Gontard

Section D. EXTERNALIZING DISORDERS

Associate Editor: Florian Daniel Zepf

D.1 Attention deficit hyperactivity disorder
Tais S Moriyama, Aline J M Cho, Rachel E Verin, Joaquín Fuentes & Guilherme V Polanczyk

D.2 Oppositional defiant disorder
Katie Quy & Argyris Stringaris

D.3 Conduct disorder
Stephen Scott

Section E. MOOD DISORDERS

Associate Editor: Garry Walter

E.1 Depression
Joseph M Rey, Tolulope T Bella-Awusah & Jing Liu

E.2 Bipolar disorder
Rasim Somer Diler & Boris Birmaher

E.3 Disruptive mood dysregulation disorder
Florian D Zepf & Martin Holtman

E.4 Suicide and self-harming behavior
Thomas Jans, Yesim Taneli & Andreas Warnke
Section F. ANXIETY DISORDERS

Associate Editors: Ana Figueroa & Cesar Soutullo

F.1 Anxiety disorders in children and adolescents: nature, development, treatment and prevention
Ronald M Rapee

F.2 Separation anxiety
Ana Figueroa, Cesar Soutullo, Yoshiro Ono & Kazuhiro Saito

F.3 Obsessive compulsive disorder
Pedro Gomes de Alvarenga, Rosana Savio Mastorosa & Maria Conceição do Rosário

F.4 Acute and chronic reactions to trauma in children and adolescents
Eric Bui, Bonnie Ohye, Sophie Palitz, Bertrand Olliac, Nelly Goutaudier, Jean-Philippe Raynaud, Kossi B Kounou & Frederick J Stoddard Jr

Section G. SUBSTANCE USE DISORDERS

G.1 Alcohol misuse
Joseph M Rey

G.2 Cannabis use and misuse
Alan J Budney & Catherine Stanger

G.3 Other substance use
Wai-Him Cheung, Anna Kit-sum Lam & Se-Fong Hung

Section H. OTHER DISORDERS

H.1 Eating disorders
Jane Morris

H.2 Tic disorders
Hannah Metzger, Sina Wanderer & Veit Roessner

H.3 Children with atypical gender development
Louise Newman

H.4 Borderline personality disorder
Lionel Cailhol, Ludovic Gicquel & Jean-Philippe Raynaud

H.5 Schizophrenia and other psychotic disorders of early onset
Jean Starling & Isabelle Feijo

H.6 Problematic internet use
Jane Pei-Chen Chang & Chung-Chieh Hung
Section I. PSYCHIATRY AND PEDIATRICS

Associate Editor: Andrés S Martin

I.1 Somatoform disorders
Olivia Fiertag, Sharon Taylor, Amina Tareen & Elena Garralda

I.2 Epilepsy and related psychiatric conditions
Eduardo Barragán Pérez

I.3 HIV/AIDS. Addressing the mental health needs of affected children and families
Tami D Benton, Anusha Lachman & Soraya Seedat

I.4 Sleep disorders in children and adolescents: A practical guide
Samuele Cortese, Anna Ivanenko, Ujjwal Ramtekkar & Marco Angriman

Section J. MISCELLANEOUS, LEGAL AND ADMINISTRATIVE

J.1 Child and adolescent psychiatric emergencies
Carlo G Carandang, Clare Gray, Heizer Marval-Ospino & Shannon MacPhee

J.2 Traditional and alternative medicine treatments in child and adolescent mental health
Nerissa L Soh & Garry Walter

J.3 Forensic child and adolescent psychiatry
Erica van der Sloat & Robert Vermieren

J.4 The mental health of children facing collective adversity: poverty, homelessness, war and displacement
Laura Pacione, Toby Measham, Rachel Kronick, Francesca Meloni, Alexandra Ricard-Guay, Cécile Rousseau & Monica Ruiz-Casares

J.5 Organizing and delivering services for child and adolescent mental health
Chiara Servili

J.6 Child and adolescent mental health policy
Gordon Harper

J.7 The United Nations’ Convention on the Rights of the Child and implications for clinical practice, policy and research
Myron Belfer & Suzan Song

FOREWORD

A Child and Adolescent Mental Health Guide in Every PALM

An electronic textbook on child and adolescent mental health (CAMH) that is free of charge and downloadable is now available on the website of the International Association for Child and Adolescent Psychiatry and Allied Professions (IACAPAP). It is based on best clinical practice, reflects the latest research, will be updated regularly and strives to be culturally sensitive. This feat clearly reveals the commitment of IACAPAP to make knowledge about CAMH widely available, whilst advocating for access to quality CAMH care globally.

This e-book is a joint venture between child and adolescent psychiatrists and allied professionals in better-resourced parts of the world and the awfully few CAMH professionals in resource-poor regions working together. This arrangement fulfils another of IACAPAP’s objectives of facilitating partnerships between developed and developing countries for the purpose of education and training, encouraging learning and growth on both sides and helping to reduce the disparity in accessibility of CAMH resources.

On the 6th of December 2010, the IACAPAP Bureau received a proposal from Professor Joseph Rey for the creation of an electronic book for CAMH to be launched at the Paris Congress in July 2012. We were thrilled about the leap forward this project could mean for CAMH worldwide. At the same time, it seemed a nearly impossible task. Now we can look back with amazement. We are fully aware that this innovation was primarily achieved with the sacrifice, doggedness, brilliance and sometimes sharpness of Professor Rey, the Editor. Seemingly impossible tasks need unusual interventions to bring them to fruition.

We were also conscious of the urgent need to have this project completed because a majority of the health professionals in the areas of the world where more than 80% of children and adolescents live have had no formal CAMH training. This book is an excellent starting point to ensure that no health professional who has to care for children is left without CAMH information. I have witnessed, first-hand, the difficulty of obtaining CAMH textbooks in developing countries due to high costs of purchase and difficulties with shipping. I have also experienced the pressure involved in having to loan a CAMH textbook for just a few days or having to make photocopies of portions of books in order to obtain needed information for patient care, research and training. This e-book will bring tremendous relief to CAMH professionals caught in this kind of web. Estimates suggest that there are now almost 6 billion mobile phone subscribers, a figure that would include a majority of the world’s population. Most of the growth in the subscriber base has come from the developing world. This e-book enables IACAPAP to put current information on best practices for CAMH into the palm of every health professional.

Finally, with a comprehensive textbook for CAMH in the palm of every CAMH professional around the world, children, adolescents and their families can have better CAMH care. Change has definitely come to the world of CAMH through access to IACAPAP’s new e-textbook of Child and Adolescent Mental Health; a truly welcome change!

Olayinka Omigbodun
PREFACE

One of IACAPAP’s commitments is to ensure that child and adolescent mental health workers everywhere in the world have access to the best up-to-date information to treat their patients. Thus IACAPAP provides regular world congresses, a parallel book series, educational courses in disadvantaged regions, the Donald F Cohen fellowship program, and the Helmut Remschmidt research seminars. This book is a further contribution in this undertaking.

IACAPAP’s electronic book brings together available technologies and resources to make learning more accessible, more efficient and more fun. For example, readers of the chapter on normal development can click and watch no less than the famous developmental psychologist, Jean Piaget, explain and illustrate his theories of cognitive development. While reading the chapter on other substances of abuse, view a clip from *Samson and Delilah*, an Australian feature film which graphically depicts the deleterious effects of petrol sniffing in an aboriginal teenager. Learn how to identify and rate the early manifestations of autism by watching a series of video clips, or listen to lectures by the best experts, or view video clips that can be used to educate parents and patients. The most recent and authoritative practice guidelines, free-to-use rating scales and questionnaires and the full text of hundreds of key publications are only a click away from your screen (text in blue signals a hyperlink). In our case, we are privileged to have not only a variety of media forms but also highly instructive text, but what you have on your screens today is only the beginning, a beta version, a skeleton: much flesh is to be added yet.

What comes next? Apart from updating the book every year, specialized chapters dealing with specific issues will be added to make the textbook increasingly more comprehensive. This may include, for example, chapters dealing with specific treatments, both psychological and pharmacological, and chapters about illnesses and problems not yet covered in this edition such as HIV/AIDS and PTSD.

How can you contribute to this project? You can provide feedback about specific chapters: what is useful and what is not; which aspects are not well described; important gaps and issues not discussed; errors; and information about specific needs or problems in your country or culture that should be mentioned. All these comments will be sent to contributors who will be asked to take them on board for the new editions. You may also suggest topics for chapters as well as the names of experts who could write them. Regrettably, the book is only available in English and, so far, the included resources in other languages are very few. So please alert the editor about resources in languages other than English.

Much remains to be done, but IACAPAP is committed to continue supporting this project to which so many people have selflessly contributed. I thank the IACAPAP Executive for their support and foresight, particularly the president, Professor Olayinka Omigbodun. Many busy experts from the five continents have contributed chapters and responded creatively to the demands made on them, for which I am grateful. I also thank the Editorial Advisory Board and the Associate Editors—who helped with some of the sections—for their advice and suggestions. Of these, Professors Garry Walter and Florian Daniel Zepf deserve special mention. Dr Jenny Bergen and Helen Rey assisted with the more unrewarding tasks of proof reading and in many other practical ways. Finally, Josephine Pajor-Markus helped with design and layout and Sherri Corrie made it easy to deal with website issues.
